### **Introduction of self-billing process**

Dear Sir or Madam,

This is an example letter exported with the **Letter (A4, scrlttr2)** template.

- The sender and recipient blocks are populated from `fromname`, `fromaddress`, `toname`, and `toaddress`.
- The `place` and `date` appear in the date line at the top.
- The `subject` is rendered as the letter subject line.
- The `opening`, body, `closing`, and `signature` form the main content.

You can duplicate this note in your vault and adapt the frontmatter for real business correspondence.

Kind regards,

Sagrosoft B.V.

Anton Bakker\ Director, Sagrosoft B.V.
